ABOUT ME

Project Manager since 2016, leading complex international projects and coordinating cross-functional teams in multicultural environments. Recently completed an MBA in Management & Data Science at IAE Paris Panthéon-Sorbonne, strengthening expertise in data science, Data & AI governance and strategy as well as analytics-driven decision making and management.

With extensive experience leading international language projects and bridging cultures, I now focus on translating business challenges into data and AI-driven transformation initiatives, coordinating cross-functional Data Engineering, BI and AI teams to build scalable data platforms and advanced AI solutions.

Certified PMP®, SAFe® Product Owner/Product Manager and Scrum Product Owner, with strong expertise in stakeholder management, project delivery and data-driven innovation. Currently strengthening technical expertise in Data Engineering, cloud data pipelines and modern data architectures through advanced training programs.

DRIVING LICENCE

Driving Licence: B

KEY PROFESSIONAL SKILLS

Personal Skills

- **Cross-functional leadership** – coordinating business, data and engineering teams
- **Stakeholder alignment** – bridging business and technical teams
- **Strategic thinking** – linking data initiatives with business outcomes
- **Analytical mindset** – leveraging KPIs and analytics for decision-making
- **Complex problem solving** – structuring solutions to operational challenges
- **Change management** – driving adoption of new data tools and processes
- **Intercultural collaboration** – managing international distributed teams
- **Agile leadership** – delivering projects in iterative environments
- **Process optimization** – improving workflows through automation and data
- **Communication & influence** – translating technical concepts into business value

Technical Skills

Data Engineering & Architecture
- Languages: SQL, Python, R, Bash
- Data Processing: Apache Spark, Apache Airflow
- Environments: Linux (Ubuntu, WSL), Docker

Data Science & Machine Learning
- BI & Analytics: Power BI
- Libraries: Pandas, NumPy, TensorFlow, Keras, Scikit-learn, Matplotlib, Seaborn
- AI Platforms: Google AI Studio, Dust, NotebookLM
- IDE: Google Colab, Pycharm, Jupyter Notebook, Replit

Backend & Data Applications
- Frameworks: FastAPI, Streamlit
- Hosting: Render, Streamlit Community Cloud

Versioning & QA
- CI/CD & DevOps: GitHub, Git Bash
- Code Quality: Black, PyLint, iSort

Data Governance & Compliance
- Frameworks: DAMA (Data Management Association)
- Regulations: GDPR (RGPD), EU AI Act
- Data Ethics & AI Governance

Cloud Computing
- Google Cloud Platform (GCP): BigQuery, Cloud Composer, Cloud Functions, Pub/Sub, IAM

Project Management

- End-to-end data and AI project delivery
- Business requirements gathering
- Functional and technical specifications
- Project planning, risk and budget management
- KPI definition and performance monitoring
- Stakeholder communication and executive reporting
- Tools: Jira, Confluence, Figma

Language Skills

- French: Native
- English: Bilingual
- German: Fluent

CERTIFICATIONS & CERTIFICATES

Certifications

- Project Management Professional (PMP®) – PMI
- SAFe Product Owner / Product Manager (SAFe POPM)
- Professional Scrum Product Owner I (PSPO I)
- Professional Scrum Master I (PSM I)
- Microsoft AI Product Manager Certificate
- Additional certifications in Agile, AI Project Management and Data Product Management

WORK EXPERIENCE

PROJECT & OPERATIONS MANAGER – FREELANCER – 06/09/2016 – 24/10/2025 – LILLE, FRANCE

Led international projects and cross-functional teams while implementing **data-driven workflows, performance monitoring systems and collaborative platforms**.

Responsibilities
- Managed teams of up to **15 contributors** across multiple concurrent projects
- Delivered **100+ projects annually** with budgets up to **€70K**
- Coordinated international stakeholders and ensured project delivery within scope, timeline and budget
- Gathered business requirements and translated them into operational workflows and technical specifications
- Defined and monitored **KPIs for delivery performance, quality and customer satisfaction**

Key Achievements
- Reduced delivery times **through workflow automation and tool integration**
- Reduced operational costs **through process optimization**
- Increased client satisfaction (**NPS score**) through structured performance monitoring
- Implemented collaborative platforms improving team productivity

EDUCATION AND TRAINING

10/10/2024 – 31/10/2025 Paris, France
MBA IN MANAGEMENT & DATA SCIENCE IAE Paris

Focus areas:
Project Management & Innovation
Business strategy
Data Science
Machine Learning
Data Governance
Python programming for data
Big Data & database querying
AI governance and data privacy

Website https://www.iae-paris.com/fr/executive-programmes/executive-mba-management-et-data-science |

Field of study Business, administration and law

15/01/2026 – 25/05/2026

DATA UPSKILLING – DATA ENGINEERING & MODERN DATA STACK Benjamin Dubreu

Linux environment and Bash scripting
Python for Data Engineering (OOP, automation)
Advanced SQL and analytical queries
Data transformation with Pandas and DuckDB
Git and collaborative development workflows
API development with FastAPI
Data applications with Streamlit
Distributed data processing with Apache Spark
Workflow orchestration with Apache Airflow
Cloud Data Engineering on Google Cloud Platform
Batch and streaming data pipelines

Field of study Database and network design and administration

01/06/2025 – 25/08/2025

MICROSOFT AI PRODUCT MANAGER CERTIFIED Coursera

Enterprise Product Management Fundamentals
Market Research and Competitive Analysis
Product Strategy and Roadmapping
Product Design and UX/UI Fundamentals
Product Launch and Post-Launch Management

Website https://www.coursera.org/ | **Field of study** Information and Communication Technologies

07/07/2024 – 14/10/2024 Paris, France

DATA PRODUCT MANAGEMENT Datascientest

Data lifecycle management
Data governance and GDPR
Python & SQL for analytics
Power BI and Tableau

Website https://datascientest.com/ | **Field of study** Information and Communication Technologies

18/12/2024 – 16/04/2025 Lille, France

FUNCTIONAL IT PROJECT MANAGER M2i Formation

Agile project management
Business analysis and requirements management
SQL querying
DevOps fundamentals
Jira & Confluence project management

Website https://www.m2iformation.fr/ | **Field of study** Information and Communication Technologies

15/09/2014 – 09/2016 Lille, France

MASTER'S DEGREE – TRANSLATION & LOCALIZATION Université de Lille

Website https://www.univ-lille.fr/

05/10/2013 – 30/06/2014 Nice, France

MASTER'S IN ADVANCES EUROPEAN AND INTERNATIONAL STUDIES CIFE - IEHEI
